

YOUR NEW ZEALAND MANUFACTURED ORGANIC SOLUTION  
TO A CLEAN GREEN ENVIRONMENT

## Hybrid | Long Drops

Toilets

### Where & How to use our Products

#### Problems

These are a very real source of ground water pollution as well as having odours. There is usually too little moisture to allow biological action.

 **Bio-Zyme** is a **high performance**, non-toxic, non-allergenic and **readily biodegradable** multiple enzyme degreaser, odour controller, **cleaner/sanitiser\*** (\*only under MPI Approvals). **Environmentally & wastewater treatment systems preferable.** Laboratory tested - ask us about our test results, available on request.

#### Solutions

##### Bio-Zyme Industrial

Industrial - C32

-  By adding **Bio-Zyme Industrial** with a large volume of water you help satisfy the moisture demand. Biological action will start to take effect immediately and odours will disappear.
-  Use 300ml Bio-Zyme Industrial to 1L water and splash down and around hole **covering contents of tank** weekly.
-  Use 60ml Bio-Zyme Industrial to 1L of water to spray & wipe **toilet seat and interior of cubicle**. Spray contents of tank when finished daily.

or

##### Bio-Zyme Cleaner

Cleaner - C32

-  Use 60ml **Bio-Zyme Cleaner** to 1L of water to spray/foam & wipe **toilet seat and interior of cubicle**. Spray contents of tank when finished daily.
